BULLETIN OF ESTUARINE AND COASTAL SCIENCES

ECSA is an international organisation dedicated to the promotion and advancement of multidisciplinary research into all aspects of estuaries and coasts, and the application of science and technology for their sustainable environmental management.

GUIDE FOR AUTHORS

Content Types:
The Bulletin provides opportunities for professionals working in the field to publish articles ranging across science, policy, and opinion. Contribution types include:

- Science Reports/ Papers: Summary reports on estuarine or coastal topics, summaries of work-in-progress, or published literature or short reviews
- Coastal Policy & Management: Updates on policy issues or developments at international, regional, or local levels.
- Opinion Pieces: Personal perspectives, thought-piece contributions, or responses to published articles.
- Book Reviews: Reviews of books related to estuarine and coastal sciences or management.
- Early Career Section: Contributions from ECRs on research, career reflections, or experiences at ECSA events NB. ECRs are encouraged to publish under category under the Science Reports Category above. Such papers could focus on early findings.
- ECSA Reports: Highlights of major ECSA activities, including outcomes of meetings, workshops, or grants.

Format:
Article Length:

- Science Reports/ Papers: maximum 1000 words (maximum of 15 references)
- Coastal Policy & Management: maximum 1000 words (maximum of 15 references)
- Opinion pieces: maximum 1000 words (maximum of 15 references)
- Book Reviews: maximum 500 words
- Early Career Section: maximum 1000 words (maximum of 15 references)
- ECSA Reports: maximum 500 words (maximum of 15 references)

Articles below the word count will be accepted if they are within scope of the Bulletin's focus. Please submit the article as a Word document. Images and graphs should be in JPEG or PNG format and provided in high resolution. Referencing can be in the authors preferred format, although use of a consistent referencing style is required.

Contributors and Audience:
The Bulletin is universally and freely available via the ECSA website after a six-month period during which it is exclusively available to ECSA members. Authors receive a copy immediately on publication. Hard copies of the Bulletin are not generally produced but can be provided on request at cost price. Past bulletins remain available to all on the ECSA website indefinitely.

Contributions from non-members and members are equally encouraged. Content should be pitched at a level suitable for a scientifically competent but multidisciplinary readership. Aim for accessible and jargon-light language, with brief explanations for any technical terms. Colour photographs and figures are encouraged where relevant to the subject.

Authors may use their published text and/or figures from the Bulletin in subsequent more developed papers as might be submitted to peer review journals. In such circumstances the Bulletin paper should be cited or otherwise acknowledged.

Accessibility and Diversity:
The Bulletin is committed to inclusivity and welcomes contributions from all backgrounds. Authors are encouraged to consider accessibility in their writing by using clear English and avoiding colloquial phrases or jargon. Additionally, authors are encouraged to provide alternative text for images, ensuring that visual content is accessible to readers with impairments.

Ethical Guidelines:
Submissions must be original and free from plagiarism; proper credit must be given for any third-party content.

Use of AI for generating Bulletin Articles
Authors may use AI and AI-assisted technologies in a supportive capacity to assist with drafting, structuring, or refining the language of their submissions. Where such tools are used, authors must include a declaration statement at the end of the article, detailing the name of the tool used and the specific purpose of its application. The author must confirm that they have thoroughly reviewed and edited the resulting content and take responsibility for the content of the published article. Authors should not list AI tools as an author or co-author, nor cite AI tools as an author.

Editorial Information:
Articles may be edited for style or length with the author's approval. Submissions that do not align with the Bulletin's aims or are overly promotional without sufficient context may be declined.

Submissions do not undergo a peer-review process, the sole purpose of review by the editor is to assess the contribution's alignment with the scope of the Bulletin.

Submission Process:
To submit a contribution email articles to Gemma.Smith@iecs.ltd

- Include a short author biography (50 words) and a list of any supporting images or graphs.
- Adhere to the deadlines shared for each issue. The yearly issue deadlines are:

Spring edition: 31st January
Autumn addition: 31st August

Queries:
Any queries can be directed to Gemma Smith, as the Bulletin Editor, please email these to: Gemma.Smith@iecs.ltd
